McIntosh

R. I. Greening

Rome
Beauty

We have 70,000 trees of these three varieties, besides 25,000 Baldwins and a heavy stock of all others. Every tree a perfect specimen, well branched and good roots.

WE PAY THE FREIGHT

THIS BOOK IS OUR SALESMAN

THE CASH WITH ORDER WAY

Why Pay Agents' Commissions? Why Pay Other People's Bad Debts?

You get trees so much cheaper from us because our way of dealing direct with the planter, and saving middlemen's expenses and commissions enables us to sell quality trees at almost half the price that tree agents ask.

TO OUR PLANTER or purchaser of nursery stock, at least three things are indispensable: first, varieties true to name; second, healthy, vigorous, well matured trees or plants; and third, careful and judicious packing, without which all may be lost. We use the utmost precaution in packing.

WE GIVE the most careful scrutiny to the genuineness of varieties, endeavoring by all methods known to us to protect our customers from error or imposition. By such careful and constant watching and attention, we are warranted in offering our stock as pure and absolutely true to name.

OUR STOCK is of our own growth and fresh dug from the ground when shipped; trees are nice, straight and well rooted and are sure to please. When we get a customer we want to keep him. **EVERY TREE** we send out is graded by ourselves personally.

WE DON'T deal in 2d and 3d class scrub trees that can be bought for almost nothing. We have none of that small, cheap, inferior stock to sell at any price; all strictly first-class, first quality in their respective grades.

INSPECTION.—All of our nurseries and orchards were inspected twice the past season and found to be entirely free from any disease whatever. Certificate of Inspection is attached to each and every shipment.

OUR GUARANTEE.—Our plants are warranted true to name and of the grade represented. Should any stock prove not true to name, we will either refund the purchase price paid us for same or replace the stock true to name free, but are not liable for further damages, and, while we exercise great care to prevent mixture, the above are to be the conditions on which all stock is sold by us.

TERMS.—Cash with order. Remit by Registered Letter, P. O. Order, Express Money Order, Draft on New York, as all these forms are safe and convenient. Do not send stamps when remitting, except for amounts less than 50c and then send only one and two cent stamps.

IMMEDIATE NOTICE should be given to us of any error in filling out an order, so that we may at once rectify the mistake, or give a satisfactory explanation.

EVERY ORDER will receive prompt and careful attention. We thank our customers for their liberal patronage in the past and solicit a share of their future orders.

L'AMOREAUX NURSERY CO.,

Schoharie, N. Y.

HOME GARDEN COLLECTION

APPLE, 1 Yellow Transparent,
1 King.

PEACH, 1 Elberta,
1 Crawford.

PEAR, 1 Bartlett,
1 Duchess.

PLUM, 1 Bradshaw,
1 Lombard.

CHERRY, 1 Montmorency
1 Yellow Spanish.

This is a bargain for the man who wants an assortment of fruit for table use. TEN TREES, all best roots and tops, all good varieties. - - - - -

OUR SPECIAL PRICE

\$1.75

STOCK IS OF THE RIGHT QUALITY—Grown Right, Packed Right, Sold Right—All Right

OUR GUARANTEE: While we exercise the greatest care to have our stock genuine and reliable we agree to replace on proper proof, all that may prove untrue to name as labeled, and it is hereby mutually agreed that our replacing it, or offer to replace it, shall operate as a liquidation of all damages.

FRUIT DEPARTMENT

APPLES

Our list embraces a careful selection of the best for the several seasons and those that have proved worthy of general cultivation.

PRICES OF APPLE AND CRAB TREES

30 trees sold at 100 rate and 200 at 1000 rate

Large size, 6 to 7 ft.	25c;	\$2.00	per	10;	\$17.50	per	100;	\$140.00	per	1000
Medium " 5 " 6 "	20c;	1.50	"	"	13.00	"	"	120.00	"	"
Small " 4 " 5 "	18c;	1.25	"	"	10.00	"	"	95.00	"	"

SUMMER

Early Harvest—Medium, pale yellow, fine flavor, sub-acid; very productive. July.

Red Astrachan—Large, crimson, juicy, with rich, sub-acid flavor. Bears early; hardy. July.

Sweet Bough—Large pale green, flesh sweet with rich flavor. July to August.

Tetofsky—Medium, yellow, striped with red and heavy bloom; juicy and acid; very hardy. August.

Yellow Transparent—A Russian apple of splendid quality. The hardiest and finest early summer apple grown. Ten days earlier than Early Harvest. Fruit large, pale yellow, sub-acid, a very early bearer, and entirely hardy. This variety is one of the best market sorts.

AUTUMN

Alexander—Large, deep crimson, sub-acid; hardy and productive; poor quality. Fall.

Duchess of Oldenburg—A large, beautiful Russian apple; round, streaked red on yellow ground; tender, juicy, very acid. Fine for cooking. Bears early; productive. September.

Fameuse (Snow)—Medium, deep crimson, flesh very white, tender, crisp and juicy, sub-acid. A popular dessert apple. Oct.

Fall Pippin—Very large, yellow, rich and juicy, delicious, sub-acid. Oct. and Nov.

Gravenstein—Very large, round, yellow; flesh tender, juicy, crisp, aromatic, sub-acid; first quality. September.

Maiden's Blush—Medium, pale yellow, red cheek, fine quality, sub-acid. October.

WINTER

Delicious—Tree a strong, hardy and vigorous grower, a late bloomer and an annual cropper. Fruit medium to large, oblong, with the surface nearly covered with a brilliant dark red. The flesh is fine grained, crisp, juicy and delicious. In quality it surpasses McIntosh and Grimes' Golden

and ranks with Ben Davis as a late keeper. Delicious is a perfect apple and we unhesitatingly recommend it to anyone desiring a high class fancy apple. Every one should plant a few trees of this grand variety. 50c each; 3 for \$1.35.

Baldwin

Baldwin—Large, roundish, skin deep red; flesh juicy, crisp, sub-acid, good flavor. Very vigorous and productive. The best all-around winter apple for New England and the Northern States. Keeps splendid. December to March.

Ben Davis—The great market apple of the West and South, largely planted also in the East. One of the best for profit. December to April.

Bellefleur—Large, oblong, yellow, tender, juicy, crisp, sub-acid; fine quality. December to February.

Bismarck—An apple highly prized for its wonderful productiveness and early bearing. Color deep yellow shaded with red, size very large; flesh yellow, tender and juicy; fair quality; excellent for cooking. Season early winter. It often fruits at two years old.

Pound Sweet—A very large round, greenish apple, excellent for baking. Productive. October to January.

Jonathan Seedling—Is one of the most beautiful apples we have been experimenting with. Resembles its parent in shape, though larger. Color, a dark rich red, very beautiful. In quality and flavor it is equal to Jonathan and Spitzenburg. Tree is a strong, hardy and vigorous grower. Four years ago when yearling trees of Spitzenburg and Baldwin were frozen badly in the nursery, this variety came through the winter safely, not damaged in the least. Is an exceedingly early bearer; two year grafts bore last season, also three year trees in the nursery rows bore quite a few choice specimens. Any one in search of a choice fancy apple will find it in this variety. Price 50c each; 3 for \$1.35.

Grimes' Golden—Good size, yellow; high quality, hardy. November to March.

Hubbardston Nonesuch—Medium, red striped, tender, juicy; productive; good quality, highly recommended. November to March.

Jonathan—Fruit medium roundish; skin yellow nearly covered with dark or lively red; fine grained, very tender apple, very sweet and rich. Tree a vigorous, rapid, upright grower; valuable. October and November.

King—An apple of the largest size; deep red, round, flesh yellow, juicy, acid, tender. A light bearer; always in demand and brings the highest prices. A first-class apple for export, as it ships and keeps well. Not prolific enough to be as profitable as some others. November to March.

McIntosh Red—A very fine apple of the Fameuse class; hardy, large, dark red; flesh white, very tender, splendid quality. A prolific bearer. November to February.

Northern Spy—Too well known to need description. Crisp, tender, high quality, fine shaped, beautiful coloring. Red, usually striped, sub-acid. Takes 12 to 15 years to come into bearing, but very productive after that. November to March.

Northwestern Greening—Very hardy, greenish yellow, large, mild, sub-acid. November to March.

Opalescent—Highly prized sort for fruit stands. The flesh is yellowish, tender, juicy and good, size large to very large and color light shading to very dark crimson. Season December to March.

Rome Beauty—Large, yellow, shaded with bright red; flesh yellowish, tender, juicy, sub-acid; moderate grower. November to February.

Roxbury Russet—Medium, dull green and yellow; flesh white, rich sub-acid. November to March.

R. I. Greening—Large, greenish-yellow; flesh yellow, fine grained, tender, crisp, juicy, sub-acid. Fine for cooking. Very productive. November to March.

Seek-No-Further—Large, striped red, fine grained, tender, sub-acid, good; productive. October to February.

Spitzenburg (Esopus)—Medium, dull red; flesh yellow, firm, juicy, delicious, sub-acid. November to March.

Stark—Large, red, juicy, sub-acid, mild flavor. November to March.

Stayman's Wine Sap—Similar to Wine Sap except larger, better quality and more productive. December to May.

Sutton Beauty—Resembles Baldwin, but better quality; medium size, yellow, striped with crimson; tender, good, sub-acid; productive and early bearer. November to March.

Talman Sweet—Medium, pale whitish-yellow; flesh white, fine grained; very hardy and productive. The best winter sweet apple for home and market. Nov. to March.

Twenty Ounce—Very large, yellow and red, tender, juicy, crisp, sub-acid; productive. October to January.

Wagener—Medium, yellow, shaded with crimson; very tender, juicy, crisp; early bearer. Mild acid, fine flavor. Very productive and a fine apple. Nov. to Feb.

Wealthy—An American apple that is becoming very popular on account of its handsome appearance and early fruiting. Hardy and productive. Fruit large size, roundish, skin smooth, splashed with dark red; flesh white, tender, juicy, sub-acid. November to January.

Winter Banana—An excellent new apple of large size, very showy in appearance, roundish, deep yellow with red cheek. In season in November and keeps well till spring. Is a handsome apple and has a Banana perfume; tender and delicious.

Wolf River—Very large, yellow shaded crimson; acid, juicy. Dec. to February.

York Imperial—Medium, whitish shaded crimson; firm, crisp, juicy, mild, sub-acid. Very popular in Pennsylvania and the middle South. November to February.

Two-year Apple Trees in L'Amoreaux Nurseries

CRAB APPLES

Hyslop—Large, dark rich red, flesh yellow, sub-acid; productive, hardy and popular. October.

Large Red Siberian—About an inch in diameter, grown in clusters; yellow, lively scarlet cheek. Tree erect, vigorous, bears young and abundantly. September and October.

Martha—One of the largest and finest crabs; red and yellow. Fine for sauce. October.

Transcendent—Large, yellow with rich crimson cheek. An improved Siberian crab. September.

Whitney—Large, greenish striped with carmine; flesh firm, juicy and rich. Season last of August.

Dear Sirs:—The apple trees came to hand Friday and they are now set in their permanent places. They are fine, thrifty, clean trees and I am well pleased with them. Thank you for the extra ones.

Winchester, N. H., Nov. 10, 1913.

Yours truly,

CALVIN S. ANDERSON.

Dear Sirs:—The trees and plants came Monday and I set them to-day and they look good to me. They are a fine lot. I will set the berries to-morrow

Altamont, N. Y., May 1, 1913.

Yours truly,

C. E. LUCKEY.

Have You Tested the Quality of L'Amoreaux's Trees? If not, Give them a Trial, they Speak for Themselves.

PEARS

PRICES OF STANDARD AND DWARF PEARS

30 trees sold at 100 rate and 200 at 1000 rate

4 " 5 "	17c;	1.40	" "	10.00	" "	90.00	" "

SUMMER

Bartlett—Large size, rich, melting, delicious; everywhere successful. The best early market pear. Requires thinning to get the largest size fruit. Blossom sterile requiring other varieties planted near by to insure fertilization. September.

Clapp's Favorite—Very large and showy, golden yellow with red cheek; very productive. Ripens a week before Bartlett. Aug.

Koonce—Fruit large, yellow with crimson cheek; quality good, spicy, juicy, sweet; very early.

Wilder—Medium size, yellow with carmine shading; fine grained, tender, sub-acid. August.

AUTUMN

Bartlett-Seckel (Columbia)—Combining good qualities of both; handsome and good. Tree vigorous and hardy. September and October.

Beurre Clairgeau—Very large and attractive; color rich yellow and red; flesh coarse. Keeps well; excellent for canning and market; very productive. September.

Duchess d'Angouleme—Very large, greenish-yellow, tender, melting, buttery and juicy; does best as a dwarf.

Flemish Beauty—Large, sweet, melting, very productive, but liable to scab; very hardy. September.

Howell—One of the finest fall pears; large, yellow, rich. Splendid quality. September.

Kieffer—Very large, deep yellow with russet dots; juicy, sweet, coarse; immensely pro-

ductive. Fruit must be thinned to get the largest size. Fine for canning. Said to be blight-proof. October and November.

Seckel—Small, finest flavor; excellent for pickling and dessert; very productive. September.

Sheldon—Medium size, round, russet and red; melting, rich, very juicy, delicious. Fine for dessert; very productive; keeps well. October.

Vermont Beauty—Medium size, yellow shaded with carmine; flesh melting; good quality; very hardy. October.

Worden-Seckel—A seedling of the Seckel, only larger. Fully equal to it in quality, and more juicy, equally luscious and with the same rich and inviting aroma, while in size, color and form it is decidedly superior. Color golden yellow with bright red side, skin smooth and waxy with russet dots. Season October to December.

WINTER

Beurre de Anjou—A grand pear; large, handsome, buttery, melting, rich; yellow when ripe. The finest winter pear grown. Requires to hang late and is liable to fall on standard trees. Does best as a dwarf. October and January.

Lawrence—Medium size, golden yellow, melting, very rich. The finest early winter pear. November and December.

Winter Nelis—Medium size, greenish-yellow, spotted with russet. Melting and of finest quality; bears heavy crops.

Sharon, N. Y., May 7, 1913.

Gentlemen:—I received the trees in fine shape; they were well packed, and if they do not live it will be no fault of yours. Thank you for the fair treatment.

Yours truly,

LESTER VROMAN.

See our BARGAINS and COLLECTIONS on page 31 and Inside of Covers

DWARF PEARS

Profit—It is claimed that there is more money in dwarf pears at \$1.00 per barrel than in apples at \$2.00.

Cultivation—Plant deep, with juncture of bud and stock fully three inches below the surface. Every year the new growth must be kept cut back one-half to one-third, and keep the top of tree open and the tree dwarf. Pinching the top buds in the summer will produce fruit buds. Let them branch close to the ground, keep clean until well established.

Following are the varieties best adapted for growing as dwarfs:

Bartlett—Mid-autumn.

Beurre de Anjou—Early winter.

Clapp's Favorite—Very early.

Duchess—Late fall, fine.

Seckel—September.

Seckel

CHERRIES

HEARTS AND BIGARREAUS. (Sweet)

30 trees sold at 100 rate and 200 at 1000 rate

Large size, 6 to 7 ft.	30c;	\$2.50	per	10;	\$22.00	per	100;	\$210.00	per	1000
Medium " 5 " 6 "	25c;	2.00	" "	15.00	" "	175.00	" "	" "	" "	" "
" 4 " 5 "	20c;	1.50	" "	14.00	" "	135.00	" "	" "	" "	" "

Black Tartarian—Fruit very large, heart shape. Dark purple, tender, rich, good, very prolific. Tree upright, vigorous and healthy. The best early black cherry. June and July.

Dikeman—Large, heart-shaped, black. Flesh firm, rich, sweet and good. Remarkable for its long keeping qualities, hence valuable for shipping. A very fine variety.

Governor Wood—Large, light red, tender, delicious. Very early and productive. Hangs well. June.

Mercer—Very large, heart-shape, dark red, fine flavor, early and prolific. A sure cropper. Very hardy and healthy, strong

grower. Said to be very free from worms. June.

Napoleon—The largest size, yellow with red cheek. Very firm, juicy and sweet. Vigorous, upright tree. Very valuable for market and shipping; enormously productive. July.

Schmidt's Bigarreau—A fine, rich, deep black cherry; very large. Flesh firm, dark, tender, juicy and rich. Tree thrifty, upright grower, fine for market. Very late.

Windsor—Very large, liver colored, finest quality; very vigorous and productive. Firm and excellent for shipping. Very late.

Gentlemen:—The trees received in fine condition and am very much pleased. When I want more I will order from you.

Hurley, N. Y., April 30, 1913.

Yours truly,
JOHN W. BRINK.

We do not Claim to Furnish the Cheapest Trees, but We Do Claim that
None Better are Grown Anywhere

Yellow Spanish—Large, early, yellow with bright red cheek. Heart shape; firm, juicy, rich, high flavored; makes a large tree; much grown for market. End of June.

WILLSEY—It is the hardiest sweet cherry there is, trees never being injured during severe winters. The original tree, from which we secured our stock, is half a century old, and never fails to produce a large crop of fruit. It is an annual bearer. Some nurserymen sell Napoleon for this variety, others

Yellow Spanish, etc.; but this is the true old-style sort, so seldom seen, as it is almost extinct. Fruit is of the largest size, light yellow, with a blush cheek; very firm, juicy and sweet. Ripe specimens have been kept nearly a month in good condition. It ripens in mid-season. We cannot praise the WILLSEY too highly, it being superior to all other varieties. Will succeed where others fail. Price of choice, large sized trees, 50c each; \$5.00 per dozen.

CHERRIES

DUKES AND MORELLOS (Sour).

30 trees sold at 100 rate and 200 at 1000 rate

Large size, 5 to 7 ft.	30c;	\$2.50	per	10;	\$20.00	per	100;	\$180.00	per	1000
Medium " 4 " 5 "	25c;	2.00	"	"	15.00	"	"	130.00	"	"
4 ft. high,	20c;	1.50	"	"	10.00	"	"	90.00	"	"

Early Richmond—Medium size, bright red, acid, very hardy and productive. Fruits very young. For cooking and market one of the best. June.

English Morello—Medium size, dark red, acid, late; dwarf. Very hardy; early bearer. July.

Large Montmorency—Fruit large, bright red, fine flavor; very hardy and immense bearer. Season a little later than Early Richmond.

Olivet—A tree of this variety should be in every garden. The fruit is very large, has

a shining, deep red color; tender, mild sub-acid flavor. Ripens in June.

May Duke—Large; red, juicy and rich; an old excellent variety. Vigorous and productive. Middle of June.

Ostheime—Large, tender, juicy, almost sweet, very good, extremely hardy. July.

Wragg—Dark red. Sweet cherry of recent introduction. Valuable for market.

Dyehouse—Medium size, like Early Richmond, but ripens a week earlier.

PLUMS

For prices of Greely and Middleburgh, see description

30 trees sold at 100 rate and 200 at 1000 rate

Large size, 6 to 7 ft.	30c;	\$2.50	per	10;	\$22.00	per	100;	\$200.00	per	1000
Medium " 5 " 6 "	25c;	2.00	"	"	16.00	"	"	150.00	"	"
4 " 5 "	20c;	1.50	"	"	10.00	"	"	95.00	"	"

Damson—Small, oval, purple, covered with blue bloom; flesh melting and juicy, rather tart; entirely free from rot. Last of Sept.

Green Gage—Small, delicious, very prolific, fine for table use. August.

Fellemburg (Italian Prune)—Very large, rich dark purple, flesh juicy and good, rather coarse, freestone; tree spreading; productive. September.

German Prune—Medium size, dark blue, juicy, rich. Excellent for preserving. Sept.

Grand Duke—Very large, deep purple, fine flavor. Tree upright, vigorous and productive. September.

Monarch—Large, dark purple, freestone, delicious quality. Tree strong, upright, and productive. Does not crack with rain. Season last of September.

Reine Claude—Large, yellowish-green, juicy, melting, sugary, rich flavor. September.

Yellow Egg—Very large, golden yellow, fine quality; very productive. August.

Bradshaw—Very large, purple, juicy, excellent quality. Tree erect and vigorous, productive. August.

Giant Prune or York State Prune—Very large, measuring 2½ inches long and 2 inches in diameter; reddish purple, flesh

yellow, sweet and firm, rich, delicious, freestone; an excellent shipper. Tree fairly vigorous and productive. Sept.

Imperial Gage—Medium size, yellow, juicy, rich, delicious; productive, strong grower. August.

Lombard

Lombard—Medium, violet red, juicy, pleasant and good. Immensely productive, hardy. August.

Moore's Arctic—Medium, dark purple, thin skin, fine flavor; a great bearer, extremely hardy. September.

MIDDLEBURGH—Originated at Middleburgh, N.Y., several years ago, and is now recognized as one of the best varieties grown in this section. In size it is very large, often measuring seven and one-half inches in circumference. Form oblong, oval. Skin purple covered with a beautiful bloom. Tree hardy, vigorous and an upright, compact grower. Bears immense crops

annually, never fails. Surpasses all others in keeping and carrying qualities, in fact, it is the best and latest keeper grown. Flesh firm, even when dead ripe, juicy with a delicious flavor. The Middleburgh will hang on the tree until severe frosts cause it to drop. The past season (1913) we picked fruit from one tree for six weeks. Begins to ripen about Sept. 15th. Has no superior as a canning plum. Its large size, fine quality and great productiveness make it one of the most valuable of all European varieties of plums. One farmer was offered \$2000 for the crop in his small orchard. Will command the highest price in the market. Price for large trees, 5 to 7 feet high, 50c each; 3 trees for \$1.25; 12 for \$4.00; 25 trees for \$7.50.

Middleburgh—Actual Size

Frankfort, Del., April 29, 1912.

Dear Sirs:—The trees received in good shape and were as fine a lot as I ever had. Am well pleased with them. Thanking you for the extra ones, I am,

Yours truly,
HORACE R. HUDSON.

Cherry Valley, N. Y., May 1, 1913.

Gentlemen:—I received the trees and they were in fine shape, the best I ever bought for the money. Mr. Cox came home Saturday and he was well satisfied with them, and he said he would purchase our trees of you hereafter. I am recommending your goods all I can.

Yours very truly,
GEO. F. STREETER.

Branch of a Greely Plum Tree

GREELY — This came to us several years ago, and after giving it a thorough trial, we planted it quite extensively. It is the best plum we have in our orchards, and we have all of the best of the Japan and European varieties. The trees are very hardy and free from black knot, even when growing near the Quackenboss and other varieties susceptible to that disease. It is very productive, yielding good annual crops of large and attractive fruit that commands the highest price in the market. The year 1907 we picked over twenty bushels from ten trees that sold for \$2.50 per bushel, net. It doesn't take many of this variety to fill a basket, they are so large. It is claimed to be a seedling of the Bradshaw, which it resembles somewhat. Color, a dark violet red; juicy, with a delicious flavor. It is a perfect freestone. Price of choice trees, 6 to 7 feet high, 50c each; 3 trees for \$1.25; 12 trees for \$4.00; 25 trees for \$7.50.

PEACHES

PRICES OF CHOICE PEACH TREES

30 trees sold at 100 rate and 200 at 1000 rate

Extra heavy, 5	to 7 ft.	25c;	\$2.25	per 10;	\$15.00	per 100;	\$150.00	per 1000
Large size, 4	" 6	16c;	1.25	" "	10.00	" "	90.00	" "
3½	" 5	12c;	1.00	" "	7.50	" "	70.00	" "
2½	" 4	10c;	.75	" "	5.50	" "	50.00	" "
2	" 3	10c;	.75	" "	4.50	" "	40.00	" "

Carman—Large, oblong, pale yellow with deep blush; flesh tender, juicy and fine flavor; very hardy and a heavy bearer. August.

Champion—A white freestone, ripening about September 1st. Delicious, sweet, rich and

juicy, skin creamy white with red cheek, strikingly handsome. It is hardy, productive, early, largest size and highest flavor.

Crawford's Early—Very large, yellow, rich, sweet; luscious; free. September.

If your order amounts to \$7.00 or more and is accompanied with cash, we will prepay freight

Elberta Peach Tree

From the Elmira Star-Gazette

The L'Amoreaux Nursery Co.

This nursery concern at Schoharie, Schoharie county, N. Y., was established 12 years ago by F. R. L'Amoreaux, and under his able management has become noted as one of the most reliable nursery companies in the state. He is a native of Schoharie county, was reared on a fruit farm from boyhood up and has an intimate knowledge of the requirements of all classes of fruit raisers.

The company now have several farms of fine growing stock, including apples, peaches, pears, plums, cherries, grapes and small fruits of all kinds. These are all guaranteed to be absolutely true to name and to be free from scale or other disease. As no scale has ever appeared in this section, this stock is especially desirable.

They make a specialty of fresh dug stock and nothing is placed in storage in the fall. Mr. L'Amoreaux personally supervises the cutting of all the buds used to propagate and takes the utmost care in these processes. As labor is much cheaper in this part of the state than elsewhere, he is able to give his customers the benefit of lower prices.

This company does a mail order business, selling directly to fruit growers, and is a leader in this line of business. Their output now reaches throughout the Eastern States and as far west as Wisconsin. They issue a complete catalogue, which is sent on request.

All persons desiring to engage in raising fine fruit should at once communicate with the L'Amoreaux Nursery Co.

Every Tree we have to Sell is a Perfect Specimen. No Scrubby Stock sold at any Price

Crawford's Late—Very hardy, large, yellow, rich, sweet; free. September.

Crosby—A beautiful yellow freestone peach with very small pit. Excellent flavor, large size, color orange-yellow, with carmine on the sunny side. Very beautiful; tree willowy growth, like Wager; rather dwarf; ripens between Early and Late Crawford.

Elberta—Among the peaches Elberta takes the lead for beauty, size and quality. It is one of the hardiest, as large or larger than the Crawford's Early, and fully its equal in beauty and flavor. One of the finest yellow freestone peaches. Fruit yellow with red cheek; flesh yellow, juicy, and of good quality; ripens slightly later than Early Crawford.

Fitzgerald—A native seedling, as large or larger than Crawford; freestone, very best quality. A heavy bearer, fruiting very young, almost invariably the second year after planting. Very hardy. Ripens just after Crawford's Early.

Greensboro—Larger and earlier than Alexander, and is nearly freestone. It is colored beautifully with crimson and has a yellowish cast; the flesh is white and of good flavor. The peach is large, many specimens measuring 8 to 9 inches in circumference. Productive.

Kalamazoo—A leading Michigan market sort; large, yellow, fine quality. Extra productive and profitable.

Mountain Rose—Large, red; flesh white, juicy, rich and excellent. One of the best early peaches, ripening with Troth's Early, and much larger and finer than that variety. Should be in every collection. First of August.

Niagara—In appearance just like Elberta and of same size. However, it is a much better peach in quality, much less subject to leaf curl and other diseases, hardier and about a week later. Planted more than all others in the famous Niagara peach belt.

Stump the World—Very large, roundish; skin white with a bright red cheek; flesh white, juicy and good. Last of September.

Salway—Very large, yellow, firm, juicy, melting, rich; free; very late, ripening in Oct.

Triumph—It ripens with Alexander, blooms late, has large flowers; a sure and abundant bearer. The fruit is of large size, with a very small pit, and is indeed beautiful. Surface is yellow, nearly covered with red, and dark crimson in the sun; flesh bright yellow, free when fully ripe and of excellent flavor.

5 to 6 feet,	35c each,	\$3 50 per dozen
4 " 5 "	30c "	3.00 "

Are a rich, delicious fruit, coming between cherries and peaches, very much like the peach in outward appearance, but like the plum in quality and texture. One of the finest fruits for drying, and they fill a season when there are no other large fruits.

Acme—A new and fine variety. Tree stout, healthy and hardy with handsome foliage.

Fruit large and sweet; rich yellow with red cheek. July.

Harris—Rich golden yellow; large size, very fine quality; hardy, early bearer and prolific.

Montgamet—Medium size, early; juicy and excellent; hardy. July.

Moorpark—Large, orange and red; firm, juicy, rich flavor; very productive. Aug.

Note Special Price on Kieffer Pears on Page 6

Woodbury, Conn., May 2, 1913.

Gentlemen:—The trees arrived last week and had the appearance of being fresh from the ground. They look nice set out and the plants also look nice. Many thanks for sending them in such nice shape. Everyone praises them that has seen them.

Yours truly,
RICHARD FOWLER.

We prepay freight on all cash orders to the amount of \$7.00 at catalogue prices

QUINCES

30 trees sold at the 100 rate

4 to 5 ft.	30c each;	\$2.50	per 10;	\$22.00	per 100
3 " 4 "	25c "	2.00	" "	18.00	" "
2 " 3 "	20c "	1.75	" "	15.00	" "

Bourgeat—A French variety. Very productive, healthy and thrifty. It grows in tree form, like pears or plums. The fruit is very large, smooth, and golden yellow.

Rea's Mammoth—Very large, bright golden yellow. Ripens very early; very prolific. October.

Champion—Very large size, rich golden

yellow when ripe; a great bearer; very late. November.

Meech's Prolific—Fruit bright yellow; flesh very fragrant and tender, unsurpassed. October.

Orange—Very large, bright golden yellow, fine quality; flesh firm, cooks tender. Oct.

MULBERRIES

Downing's Everbearing—Blue-black; flesh juicy, rich, sugary, with a sprightly vinous flavor. The beauty of this variety as a lawn or street tree is enough to commend it, as well as an abundant yield of large berries for about three months, which are much relished. 50c each.

New American—Equal to Downing in every respect. Fruit of the largest size; black;

delicious in flavor. Makes a fine lawn tree of rapid growth; hardy. 50c each.

Russian—This also makes a good shade and ornamental tree, growing full and symmetrical, holding its leaves until late in the fall. Color of fruit varies, but is generally black. Bears fruit at two or three years of age. Said to be very desirable in the culture of silk-worms. 35c each.

NUT TREES

CHESTNUTS

Spanish—A handsome, round-headed tree, producing very large nuts. Price \$1.00.

American Sweet—Nuts sweet, delicate flavor. Price 60c.

HICKORY

Shellbark—A peculiar, rich, native nut, in flavor excelled by none. 50c each.

WALNUTS

Butternut—A native tree, valuable for timber, and bearing an oblong, thick-

shelled nut of delicious flavor. Price 50c each; \$5.00 per dozen.

Black—A native tree of large size and majestic form. The most valuable of all trees for its timber. Tree a rapid grower, producing a large, round nut of excellent quality. Price 50c each; \$5.00 per dozen.

English—It produces immense crops of thin shelled delicious nuts. Fruit in green state is highly esteemed for pickling. Not entirely hardy. Price 75c each.

ASPARAGUS

This earliest and finest of Spring vegetables is among the easiest cultivated and most profitable. A bed once planted will last for many years, if properly cared for and well manured. Price 25c for 25; 75c for 100; \$5.00 per 1,000.

Mammoth White—Robust and vigorous and sends up large shoots that remain white above the ground as long as they are fit to cut.

Palmetto—An early and heavy yielder and very even and regular in growth; has been tested both North and South and proved entirely successful.

RHUBARB (Myatt's Linnaeus)—Early, tender, largest and best. Price 10c each; 60c per dozen; \$4.50 per 100.

Turn to Page 31 and note our Low Prices on Four-foot Trees. All well branched and good Roots

GRAPES

Strong two-year-old plants.

10c each; \$1.00 per dozen; \$6.00 per 100.

Green Mountain, 20c each; \$2.00 per dozen.

We have extra heavy 3-year old plants in Concord that will fruit the following season, just the thing for those who are after quick returns. Price 15c each; \$1.50 per doz.; \$8.00 per 100.

Brighton (Red)—Highest quality, melting, delicious, large clusters, hardy, almost seedless.

Campbell's Early—A new Black Grape, said to be superior to Concord in many respects, ripening about with Moore's Early. Cluster and berries very large and handsome. Skin thin. Flesh firm, tender, separating easily from the seeds. Flavor rich, sweet, slightly vinous and without acidity from the skin to the center. A very strong vigorous vine. Thick, healthy foliage. Its early ripening, keeping and shipping qualities make it a very valuable market grape.

Concord—The old reliable; juicy and sweet, hardy, healthy and productive.

Delaware—A delicious little red table grape; juicy, sweet, hardy and productive.

Diamond—A white grape of high quality; melting and delicious; large cluster, hardy.

MOORE'S EARLY.

Campbell's Early

Green Mountain—This extra early grape was found growing in the Green Mountains of Vermont at an altitude of 1,400 feet, where it ripened its fruit perfectly. Color greenish white, skin thin, pulp exceedingly tender and sweet, containing but one or two seeds. The first white grape to ripen. Quality superb.

Moore's Early (Black)—Very early, large berry, extremely hardy, vigorous.

Niagara (White)—A great yielder and of fine flavor; ripens early, clusters very solid, large vines.

Salem—(Rogers' No. 22)—This is regarded as the best of Mr. Rogers' hybrids. Bunch large; berry large, round; flesh tender, juicy, with a rich, aromatic flavor; slight pulp; a good keeper.

Worden—This new variety is a seedling of the Concord, which it greatly resembles in appearance and flavor, but the berries are larger. The fruit is said to be better flavored and to ripen several days earlier.

Our stock is all first class of the different sizes as specified
We do not handle any second class trees. All poor trees or culls go into the brush heap

CURRENTS

Price, 10c each; \$0.75 per dozen; \$5.00 per 100.
Perfection, 15c " 1.50 " " 12.00 " "

London Market Currant and Pearl Gooseberry

Black Champion—An English variety of great value; very sweet and delicious; bushes very thrifty and strong; berries very large; early, prolific, fine.

Cherry—The Standard Red Currant. Fruit very large; a fine upright grower; valuable alike for market and garden; splendid quality.

Fay's Prolific—One of the very best and most popular red currants. It is very productive, hardy and vigorous; it will average larger than Cherry; of the finest quality, and brings best prices on the market; fruit bunches 3 to 5 inches long, easily picked.

London Market—Brilliant red; strong grower; less injured by leaf diseases than any other. Fruit good, fine quality, few seeds. Good for market and home use.

Perfection—A new variety of highest excellence, originated at Rochester, N. Y., and awarded the Barry Gold Medal and other first prizes. Color bright red, size of berry and bush equal to Fay's, but said to be superior to it in quality and productiveness. Ripens with Cherry or Fay's.

Victoria—This grand late red variety is one of the best. On rich land it is about as large as Cherry. Bunch very long and tapering; slightly acid, good flavor; ripens late; berries firmly set and remain on the bush a long time in perfect clusters.

White Grape—A fine white variety; mild flavor; excellent quality, good for table use; very distinct and valuable.

Wilder—Red; a new variety of great merit both for table and market. Bunch and berry large, bright rich red and highest quality.

Altamont, N. Y., May 13, 1913.

Dear Sirs:—Plants received and in the ground. You send out fine stock, the kind that grows.
Yours truly, A. S. STOLL.

Every Tree we have to Sell is a Perfect Specimen. No Scrubby Stock Sold at any Price

Downing

GOOSEBERRIES

The Gooseberry thrives best on a cool, damp, rich soil. They should be annually pruned and mulched with manure.

The demand for this fruit is constantly growing, the expense of cultivation is light, and the returns most satisfactory. Good plants should produce 200 bushels per acre the third year after planting and from 300 to 400 bushels the fifth year.

Price,	15c each;	\$1.50 per dozen;	\$10.00 per 100
Industry,	25c "	2.50 "	15.00 " "

Chautauqua—The bush is strong and vigorous, berries light yellow; free from spines and hair; veined and transparent; very sweet and delicious. Fruit 1 to 1½ inches in diameter.

Downing—Large, oval; very vigorous, hardy; foliage heavy, covering their fruit from the sun, and resisting mildew; bears abundantly. Greenish-white. Strong plants.

Houghton—Medium size, roundish, oval, sweet; very productive. Pale red.

Industry—Enormous size; dark red or cherry color, with numerous hairs; delicious when

ripe. It has been fruited in this country for years with success; unequalled for size, flavor, productiveness and vigorous growth.

Pearl—Very hardy, entirely free from mildew; good quality and more productive than the Downing; greenish-white large berry.

Victoria—This new gooseberry is a wonder. It is the strongest grower, the greatest cropper, and finest flavored of red gooseberries. It is superior to Industry in its growth, yielding larger crops of its delicious high flavored fruit, which is superb in quality—and ripens ahead of Industry. We bespeak for its great success.

Ripon, Wis., April 22, 1913.

Dear Sirs:—The Willsey Cherry and Greely Plum trees arrived in good condition. I want to thank you for such nice stock and good packing. Yours truly,

C. A. TAYLOR.

Charlestown, Mass., April 27, 1912.

Gentlemen:—I am very much pleased with my trees and can speak very high'y of them to intending purchasers.

Yours truly,

C. W. TUCKER.

Mateway, N. J., May 1, 1913.

Dear Sirs:—The trees arrived in good shape. They were well packed and I am well pleased. Yours,

L. E. HEISER.

When comparing our prices with others, do not forget that we prepay the freight charges

RASPBERRIES

BLACK CAPS.

Large well rooted plants, doz. 35c; 100, \$1.50; 1,000, \$12.00.

Plum Farmer Black Raspberry—This very large and productive black raspberry has been thoroughly tested in western New York where it is a great favorite for market or home use. It is covered with a grayish bloom, like the bloom on a grape, which makes it very attractive in appearance. It ripens early and quickly. The fruit is of enormously large size, often measuring an inch in diameter. It sells at the highest price. Black raspberries are easily grown and produce fruit in abundance.

Cumberland—"The Business Blackcap." It is of wonderful productiveness, producing regularly and uniformly very large crops. In size the fruit is simply enormous, far surpassing any other variety. The berries run seven-eighths and fifteen-sixteenths of an inch in diameter. In quality it is similar and fully equal to the Gregg. Although extremely large, it is unusually firm and is well adapted for long shipments. It is an unusually strong grower, throwing up stout, stocky canes, well adapted for supporting their loads of large fruit.

Gregg—Plants vigorous, hardy and productive; fruit above medium to very large.

Kansas—Largest size, strong, vigorous grower, hardy, bearing immense crops. Size of Gregg. Brings highest price on the market.

RED VARIETIES

Columbian—The Columbian is a seedling of the Cuthbert, grown near the Gregg Blackcap Raspberry, and believed to be a cross between the two. Of the Schaffer type, but hardy even in Wisconsin. It is a most vigorous grower, canes 10 to 16 feet in length and often over an inch in diameter; fruit very large; color dark red bordering on purple; adheres firmly to the stem; seeds small; has a distinct flavor of its own, making it a most delicious table berry. For canning purposes it is much superior to any other.

Cuthbert—Cane tall, vigorous, healthy. The fruit is bright crimson; firm.

Golden Queen—Very large; color rich yellow; vigorous, hardy, productive, splendid quality.

Herbert—This is known as the Iron Clad variety. It is a new red berry which originated in Canada and out-classes all others in hardiness. It has splendid qualities. The fruit is large, bright to deep red. It is a very strong grower and very productive. It will pay enormous profits to the grower. It is one of the best market varieties that can be grown. Highly recommended by the Government Experiment Station at Ottawa, Canada. Price, 3 for 25c; 12 for 75c; 100 for \$3.00; 1,000, \$25.00.

Marlboro—One of the hardiest, earliest, largest and best market red berries. Fair quality, handsome color, great bearer; very vigorous and largely planted for market.

Cumberland

Catawissa, Pa., May 1, 1913.

Gentlemen:—I received the 400 Blackberries from you and wish to thank you for the plants, as they were the nicest I got out of 1,000 plants I ordered this spring. I wish I had placed my whole order with you. If the weather permits, I do not think I will lose a plant.

Respectfully yours,

R. J. SHUMAN.

If you will give us a trial order this year you will be one of our regular customers hereafter

STRAWBERRIES

Our plants are grown on new fields, strictly first class, large and well rooted, and sure to please. The varieties marked pistillate are imperfect in flower and should be planted with others having perfect flowers. If plants are wanted by mail add 5c per dozen and 25c per 100.

Prices of first-class plants—Doz. 30c; 100, 75c; 1,000, \$5.00

Brandywine—Berries very large, regular, conical form; color bright glossy red; flesh firm and of very excellent quality. Its very large size, beauty of form and color, firmness and high quality will make it a desirable variety for any purpose.

Lovett—One of our best pollenizers. It is certainly a valuable acquisition to the list of good berries. Fruit large, solid and firm, excellent for market, and first rate for home use also. It has a healthy, vigorous plant; ranks above medium in productiveness.

Stevens' Late Champion—Originated in New Jersey. Plants of more than ordinary vigor; a good runner; perfectly healthy; color bright. A fine looking berry. Ripens after most other varieties have gone.

Sample (Pistillate)—One of the most dependable varieties for market. The plants are good average growers, producing an enormous crop of very large berries, quite late in the season. The berries are regular in shape, with blunt end as if sawed off.

We know of no variety that will bring better returns to the average fruit grower.

Gandy—A very strong growing plant; moderately productive; fruit large, uniform shape, bright color and good quality; season late. A cross between Jersey Queen and Glendale. Ripening two weeks after the Sharpless.

Glen Mary—Berries large, bright deep red, rich, sweet and good. One of the most productive, and holds its size well to the end. Medium to late.

Bubach (Pistillate)—One of the most reliable fruiters we have. Plants are strong, rampant, healthy growers; one of the best for market. The fruit is firm, of good flavor, dark rich color, and pleasing appearance. Season second early. The Bubach has taken a very prominent place in strawberry culture. This berry is planted largely with the Sharpless, the size, color and shape being much alike. It can stand the severest droughts, having very large foliage to protect its fruit. Its attractive appearance and large size make it a valuable berry for commercial purposes.

Hunter, N. Y., April 28, 1913.

Gentlemen:—I received the trees the first of last week and they were all in good condition. I set them all right out.

Yours truly,
J. STOTZ.

North Girard, Pa., Dec. 2, 1913.

Gentlemen:—The trees arrived last Friday, and to say that they are fine is to put it mildly. Your 2 to 3 feet peach trees are much better than the 3 to 4 feet grade I have bought from other nurseries, and at a much higher price. Thanking you for your fair treatment, I am,

Yours truly,
J. V. MEEDER.

Montclair, N. J., May 8, 1913.

Gentlemen:—The trees I ordered from you landed in first class condition and are all growing beautifully. They are a splendid lot of trees and have been greatly admired by my neighbors. They wonder how you got them to grow so straight and perfect. I will send for some more in the fall. I remain,

Yours truly,
J. B. OSBORNE.

North Girard, Pa., Dec. 27, 1913.

Gentlemen:—What is your price on Elberta Peach and Cherry trees? I think I can use quite a lot in the spring. The cherry trees I bought of you in the spring of 1911 are the finest orchard I ever saw. They are as large at the trunk as 3 to 4 inches in diameter, and have a spread of 7 or 8 feet. I have good offers from other firms, but would rather purchase of you as I am confident your stock is right.

Yours truly,
J. V. MEEDER.

We prepay freight on all cash orders to the amount of \$7.00 at catalogue prices

BLACKBERRIES

Blower—Originated in the celebrated small fruit belt of Chautauqua County, N. Y., where it has been thoroughly tested for several seasons. Claimed to be the hardiest, most productive, the finest quality and to bring on the market the highest price of all blackberries. Has produced 2,694 berries on one bush, 2,720 quarts on 1-3 acre. Large size, jet black, good shipper, best quality, unexcelled productiveness are the main characteristics of this splendid new sort. **Price, 12 for 60c; 100 for \$2.50; 1,000 for \$20.00.**

Eldorado—A strong growing hardy variety; very productive, fruit very large, jet black, in large clusters, ripening well together. Its keeping quality is unsurpassed. Fine quality, sweet, without core. **Price, 12 for 50c; 100 for \$2.00; 1,000 for \$15.00.**

Ward—Is a variety of great merit. It has now been fruited for a number of years and bears large crops annually. It was found growing wild in New Jersey. Its fine fruit, strong canes, clean, healthy foliage, loaded with enormous crops of large berries, always attract attention. Free from rust, vigorous and hardy. A seedling of the Kittatinny and closely resembles it in color. **Price, 12 for 50c; 100 for \$2.00; 1,000 for \$15.00.**

Mersereau—A new berry of sterling qualities. Large size, good quality, hardy and productive. **Price, 12 for 50c; 100 for \$2.00; 1,000 for \$15.00.**

Rathbun—Origin Western New York. A strong, erect grower with strong stem, branching freely; will root from tip of branches like a raspberry. Hardy, having endured 20 degrees below zero and produced a good crop. Forms a neat compact bush 4 to 5 feet high, producing its immense fruit abundantly. Fruit is sweet and luscious without hard core, of extra high flavor, jet black, small seeds; firm enough to ship and handle well. Very large size, resembling the Wilson and fully equal to that grand variety, with the addition of

hardiness. **Price, 12 for 50c; 100 for \$2.00; 1,000 for \$15.00.**

Snyder—The "Old Faithful" of the blackberries. Always bears and is the favorite among the old kinds. It is a very hardy, upright grower, canes large, and is productive. **Price, 12 for 50c; 100 for \$2.00; 1,000 for \$15.00.**

Taylor—It is so extremely hardy as to have stood 30 degrees below zero unharmed. Berries large and of the highest quality. One of the best for garden. **Price, 12 for 50c; 100 for \$2.00; 1,000 for \$15.00.**

Snyder

Waltham, Mass., April 15, 1913.

Gentlemen:—Thank you for sending such fine trees to me and packing them so carefully. They came in fine shape. Also, I thank you for the rose bush you sent me. When I have any more to plant, I will remember your fine trees and recommend them.

Sincerely,
JAMES WORCESTER.

Deal direct with the grower. It's the sure way to get good stock and the only way to save money when buying trees and plants

ORNAMENTAL DEPARTMENT

HOW TO PLANT AND WHAT TO PLANT

Do not make the mistake of planting at random all over the grounds. A fine, well cut lawn is one of the handsomest features of a place. Trees may be planted along a lane or avenue leading to the house, or dotted about the lawn on lines radiating from the house. This will secure light and air, with good views from the house. Upright shrubs and roses should be planted in beds, each class by itself, about the borders of the grounds. These beds should be well cultivated and the plants annually pruned. When the growth of the plants has made them very thick, some should be taken out. It will not do to plant so little that years must elapse before a fine effect will be produced. A surplus should be planted at first and this gradually taken out. Vines should be planted near the house and allowed to climb upon and about it, or they may be trained on posts, arbors or stakes, placed in suitable location on the lawn.

A detailed list of desirable ornamental trees and shrubs would be little less than a recapitulation of our entire list; but as few have room for all, we here present a list of the most desirable in each class, and refer the reader to the description of them.

DECIDUOUS TREES

Beech, Purple-leaf—A beautiful lawn tree, with purple foliage; attains 40 to 50 feet.
Price, 75c.

Birch, Cut-leaved Weeping—One of the most elegant of all weeping trees. Its tall, slender, yet vigorous growth, graceful, drooping habit, silvery white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree. Price, 5 to 6 feet, 50c; 6 to 8 feet, 75c.

Catalpa, Speciosa—One of the most beautiful lawn or street trees, producing magnificent flowers early in the spring; very rapid growing; beautiful. Price, 6 to 8 feet, 35c; 8 to 10 feet, 50c.

Catalpa, Bungei—A fine umbrella-headed tree. Price, \$1.00.

Crab, Bechtel's Double-flowered (American)—Tree medium size, covered in early spring with beautiful double-pink fragrant flowers that look like roses at a distance. Price, 50c.

The freight charge is quite an item, which you should not overlook. We prepay it on \$7.00 orders

Camperdown Elm

Dogwood, White-flowering—Flowers three inches in diameter, produced in spring before the leaves appear; very showy. Spreading, irregular form, growing 20 to 25 feet high. Price, 75c.

Elm, American White—A noble drooping, spreading tree of our own woods; one of the grandest of park and street trees. Price, 8 to 10 feet, 50c; 10 to 12 feet, 75c.

Elm, Camperdown Weeping—Grafted 6 to 8 feet high, this forms the most picturesque of drooping trees. The leaves are large, dark green and glossy. Price, \$1.00.

Horse Chestnut—The well-known species; has magnificent spikes of white flowers. Price, 6 to 8 feet, 50c; 8 to 10 feet, 75c.

Horse Chestnut, Red-flowering—Showy red flowers; makes a large tree; very handsome. Price, 60c.

Judas Tree or Red Bud (American)—A small tree, covered with pink flowers early in spring before the leaves appear. Very attractive and beautiful. Price, 50c.

Laburnum (Golden Chain)—A fine tree, growing 15 to 20 feet high, with long racemes of golden flowers in June. Price, 50c.

Linden (American Basswood)—A rapid growing, native tree, with very large leaves and fragrant flowers. Price, 8 to 10 ft., 75c.

Magnolia, Conspicua—A beautiful variety, with large white flowers that appear before

the leaves. Tree of small size; very handsome. Price, \$2.00.

Magnolia, Soulangeana—Flowers white and purple; foliage large, glossy and massive; very profuse; hardy and one of the most desirable. Price, \$2.00.

Magnolia, Speciosa—Flowers smaller than Soulangeana; blooms later; hardy and desirable. Price, \$2.00.

Magnolia Soulangeana

L'Amoreaux's Trees are Northern Grown, Entirely Hardy, Free from Scale, True to Name, and Fresh Dug when Shipped

Maple, Ash-leaved—A fine rapid growing variety; very hardy and excellent for avenues. Price, 6 to 8 ft., 40c. each; \$4.00 per doz.; \$30.00 per 100. 8 to 10 ft., 50c each; \$5.00 per doz.; \$40.00 per 100.

Norway Maple

Maple, Norway—A distinct foreign variety, with large, broad leaves of the deepest green. It retains its leaves long after other trees are bare. Price, 8 to 10 ft., 75c each; \$7.50 per doz.; \$60.00 per 100. 10 to 12 ft., \$1.00 each; \$10.00 per doz.; \$80.00 per 100.

Maple, Silver-leaved—An excellent shade tree of rapid growth; desirable for quick effects. 8 to 10 ft., 50c each; \$5.00 per doz.; \$40.00 per 100. 10 to 12 ft., 75c each; \$7.50 per doz.; \$60.00 per 100.

Maple, Sugar—A very popular tree both for lawns and avenues; symmetrical. Price, 6 to 8 feet, 50c.

Maple, Wier's Cut-leaved—A variety with cut or dissected foliage; branches slender and drooping, almost as graceful as the Cut-leaved Birch. The foliage is silvery underneath. Price, 8 to 10 ft., 75c each; \$7.50 per doz.; \$60.00 per 100.

Maple, Cut-leaf Purple, Japan—Dwarf and weeping, leaves rose color, changing to a deep purple. Leaves deeply cut, wood crimson colored. Very attractive. \$1.00.

Mountain Ash (European)—A fine hardy tree; head dense and regular, covered from July till winter with great clusters of bright red berries. Price, 6 to 8 feet, 50c.

Mountain Ash, Weeping—Very odd and attractive; covers the ground completely, making a perfect shade. Price, \$1.00.

Mulberry, Tea's Weeping—Perfectly hardy, forming a natural umbrella-shaped top or head; foliage handsome; a fine ornament for the lawn. Price, \$1.00.

Oak, Pin—A rapid growing tree, foliage deep green. Becoming very popular. Price, 75c.

Oriental Plane—As an ornamental tree for large grounds, or a shade tree for street planting, this has no superior. A rapid grower, attains a large size and is very graceful. Foliage heavy, and not subject to the ravages of insects. Especially valuable for city planting, as it is not affected by smoke or gas. Price, 6 to 8 feet, 75c.

Lombardy Poplar (P. nigra fastigiata)—A well known, tall, erect-growing tree of rapid growth and spire-like outline. Very desirable in landscape planting to destroy the sameness and give variety to the other trees. An avenue of this variety is a beautiful sight. Price, 50c each; \$5.00 per dozen.

Poplar, Carolina—A native tree of rapid growth, with large, glossy leaves; valuable for park or street planting; a fine shade tree. See prices at bottom of page.

Thorn, Paul's Double Scarlet—Flowers deep crimson, with scarlet shade; very double. Price, 3 to 4 feet, 60c.

Willow, Babylonian—Weeping Willow. Tall, graceful and drooping; very beautiful. Price, \$1.25.

Mountain Ash

Carolina Poplar

Fir, Balsam—A well known and popular tree. Beautiful and in every way desirable. Price, 18 to 24 in., 50c each; \$5.00 per doz. 2 to 3 ft., 75c each; \$7.00 per dozen.

Pine, Scotch—Rapid growing and valuable for screens. Price, 18 to 24 in., 75c each; \$7.00 per dozen.

Pine, White—The well known forest tree. Handsomest of native species. Price, 18 to 24 in., 50c each; \$5.00 per dozen.

Spruce, Colorado Blue—The finest of evergreens. One of the most beautiful and hardy of the spruces; foliage a rich sky blue; very handsome. Price, 18 in., \$1.75 each; 2 feet, \$2.50.

Spruce, Norway—Of rapid growth and graceful drooping habit. One of the best for hedges and screens. Price, 18 to 24 in., 25c each; \$2.00 per doz.; \$15.00 per 100. 2 to 3 ft., 35c each; \$3.50 per doz.; \$20.00 per 100.

EVERGREENS

Arbor-Vitae (American)—This is the finest of all evergreens, valuable for hedges, hardy, easily transplanted; nursery specimens rarely fail. It soon forms a beautiful, dense hedge. Price, 18 to 24 in., 20c each; \$2.00 per doz.; \$15.00 per 100. 2 to 3 ft., 35c each; \$3.50 per doz.; \$20.00 per 100.

Arbor-Vitae, Golden—Nearly spherical in outline and with bright yellow tinged foliage. Price, 18 to 24 in., 35c each; \$3.50 per doz.; \$25.00 per 100. 2 to 3 ft., 50c each; \$5.00 per doz.; \$35.00 per 100.

Arbor-Vitae, Pyramidalis—The most beautiful of all the Arbor-Vitae, having dark green, compact foliage and remarkably erect form; perfectly hardy. Price, 2 to 3 ft., 50c each; \$4.00 per dozen.

Norway Spruce

HEDGES

Barberry, Thunbergii—A native of Japan. A pretty species, of dwarf habit, small foliage, changing to a beautiful coppery-red in autumn. Valuable as an ornamental hedge. Price, 8 to 10 in., \$1.00 per doz.; \$3.00 per 100. 12 to 18 in., \$1.00 per doz.; \$8.00 per 100. 18 to 24 in., 25c each; \$2.00 per doz.; \$12.00 per 100.

California Privet

California Privet—This is the most glossy-leaved and rapid growing of all of the half-evergreen plants used for low hedges around private lawns and is the universal favorite. Adapted to all parts of the country. Price, 2 to 3 ft., 15c each; \$1.00 per doz.; \$4.00 per 100. 18 to 24 inches, 10c each; 75c per doz.; \$3.00 per 100.

ORNAMENTAL SHRUBS

Flowering Shrubs are most valuable among the ornamentals, whether planted in masses or single specimens. They are indispensable in the parks, the city gardens or the country home. A judicious selection will give abundance of bloom the entire season.

Hydrangea Paniculata Grandiflora

Althea (Rose of Sharon)—One of the most showy flowering shrubs, strong, erect growing, with large, bell shaped flowers of striking colors, borne abundantly in August and September, when most other shrubs are out of bloom. White, red, rose, purple, blue and variegated. Single and double. Price, 25c each.

Azalea (Ghent)—A hardy variety, with delightful perfume, blossoming during May and June. They do well in any rich garden soil, but do best in light moist ground, enriched with leaf-mould. A good assortment of colors. Price, 65c each; \$5.00 per dozen.

Azalea (Mollis)—A beautiful species from Japan, with large flowers of fine shape, perfectly hardy. Colors orange, yellow and carmine. Price, 40c each; \$4.00 per dozen.

Barberry, Purple-leaved—Foliage and fruit of a violet purple color, very striking; fine for single specimens; also desirable for ornamental hedges. Price, 25c each; 5 for \$1.00.

Barberry, Thunberg's—Dwarf habit, small foliage, changing to a beautiful red in autumn. Price, 25c each; 5 for \$1.00.

Calycanthus (Sweet-Scented Shrub)—Very desirable; the wood is fragrant, foliage rich, flowers of a rare chocolate color, deliciously fragrant; blossoms in June and at intervals thereafter. Price, 6 to 8 ft., 25c each.

Cornus Elegantissima—A variety with dark green foliage, margined with silver and red; wood dark red. A beautiful and attractive free flowering shrub. Price, 25c each.

Deutzia, Pride of Rochester—Very large double white flowers. It excels in size of flower, profuse bloom and vigorous growth; nearly a week earlier than *Deutzia Crenata*. Price, 25c each.

Elder, Golden (*Sambucus Aurea*)—A beautiful shrub, with golden-green foliage when planted in the sun. Very valuable. Price, 25c each.

Forsythia (Golden Bell)—A medium sized shrub with drooping yellow flowers early in the spring, before the leaves. Price, 25c each.

Our trees are inspected by state authorities every year and an official certificate of their freedom from diseases accompanies each shipment

Spirea Van Houttei

Fringe, Purple—A beautiful distinct shrub, with large bunches of feathery flowers which give the tree the appearance of being covered with a cloud of smoke. Price, 35c each.

Hydrangea Arborescens Sterilis (Hills of Snow)—This superb new Hydrangea is a variety of the hardy native species *H. arborescens*, commonly found "wild" in most of the states east of the Mississippi river. The sterilis is likewise absolutely hardy and is, moreover, of easy culture and is an exceedingly prolific bloomer. A five year old plant has produced one hundred and twenty-six perfect blooms at one time. Price, 25c each.

Hydrangea Paniculata Grandiflora—Hardy in all sections of the country and very easy to grow. The flowers are immense, greenish-white when first open, changing to pure white and turning pink with age. Commences to flower in July and remains in flower until November. Price, 25c each; 5 for \$1.00.

Hydrangea P. G., Tree Form—Same as above, but grown in tree form with single stem. Very fine and desirable. Price, 50c each.

Lilac, Purple—Bluish purple flowers, standard variety; always good. Price, 25c each.

Lilac, White—Cream colored flowers, very fine. Price, 25c each.

Paeonias—Fine hardy plants, rivaling the rose in perfection of bloom and coloring, and requiring little extra care, as they thrive and do well in any soil. Colors, bluish, crimson, purple, pink, red, variegated, white and yellow. Price, 25c each; \$2.50 per dozen.

Paeonia, Fringed-leaved—Beautiful foliage in threadlike filaments; flowers very double, of dark satiny crimson color. Rare and exquisitely lovely. Price, 25c each; \$2.50 per dozen.

Phlox (Hardy)—Very fine; perfectly hardy; beautiful plants. Colors, purple, lilac, white and pink. Price, 15c each; \$1.50 per dozen.

Rhododendron or Rosebay—Magnificent flowering evergreen shrubs. They do best in a peaty soil, somewhat shaded, and require winter protection in exposed situations. Colors, pink, purple, red and white. Price, \$1.00 each.

Snowball (Viburnum)—The common large white snowball. Price, 25c each.

Snowball, Japan—An erect, compact shrub, blooming in June, the plants being completely covered with large balls of flowers as white as snow. The foliage is dark green. Price, 25c each.

Spirea, Anthony Waterer—A new dwarf, flowered variety, 15 to 18 inches high, crimson flowers. Perfectly hardy; it makes a fine, compact plant. Price, 35c each.

Spirea Billardi—Fine foliage, with spikes of red colored flowers during summer and fall. Price, 25c each; 5 for \$1.00.

Spirea Van Houttei—Without doubt the grandest of all the Spireas; beautiful at any season, but when in bloom is a complete fountain of white flowers, the foliage hardly showing. Perfectly hardy and an early bloomer. Price, 25c each; 5 for \$1.00.

Syringa (Mock Orange), Golden-leaved—A plant of medium size with golden yellow foliage. It keeps its color the entire season; very sweet scented. Price, 30c each.

Weigela, Candida—A strong, upright grower, flowers pure white; in great profusion in June. Price, 25c each.

Weigela, Rosea—A beautiful shrub bearing rose-colored flowers in May and June. Price, 25c each.

CLEMATIS AND CLIMBING VINES

As a climbing vine the Clematis has no equal. Its great rich masses of flowers and rapid growth combine to make it the most desirable flower for veranda, screens, walls, arbors, etc. It requires good, deep sandy loam, well enriched.

Clematis Paniculata

Henryii—Single. The finest white Clematis. Very large fine flowers; grows rapidly. Blooms freely during summer and autumn. Price, 35c each; 3 for \$1.00.

Jackmanni—Single. Very large; deep purple; forms a perfect mass of the richest bloom; rapid grower and the very best purple sort. Price, 35c each; 3 for \$1.00.

Paniculata—Single. White, of extremely rapid growth, with dark, shining green foliage, and a profusion of flowers which are small, but borne in large panicles. Very popular. Price, 35c each; 3 for \$1.00.

Ampelopsis (Japan Ivy)—For covering buildings of brick or stone; for churches, walls, etc., requires no support, clings tightly to the smoothest surface. Bright green leaves change to brilliant colorings in autumn. It has no equal. Price, 25c each; 5 for \$1.

Dutchman's Pipe—A magnificent hardy vine of rapid growth with very large heart-shaped leaves and brownish flowers, resembling a miniature pipe; splendid for archways or verandas. Price, 35c each; 3 for \$1.00.

Honeysuckle (Hall's Japan)—Almost evergreen, with pure white flowers, turning to yellow; very fragrant; vigorous, covered with flowers from July to December. Price, 25c each; 5 for \$1.00.

Wistaria, Chinese Purple—One must see this plant in bloom to appreciate its magnificence. Perfectly hardy; it flowers in spring in long drooping racemes; very beautiful. Price, 25c each; 5 for \$1.00.

When comparing our prices with others, remember we prepay the freight on orders of \$7.00 or more

ROSES

La France

Ulrich Brunner

Baroness Rothschild

Our Roses are strong, dormant plants grown out doors, well rooted, and in every way first-class. They have in most cases already bloomed before being sent out and we believe will give satisfaction and permanent success.

Prices for any hereinafter named, except as noted. Two-year-old plants, 30c each, 4 or more at 25c each.

Alfred Colomb—Bright crimson; very large.

American Beauty—Large deep rose; very double with a delightful fragrance.

Annie Muller (Pink Baby Rambler)—This excellent novelty is the result of a cross between the Crimson Rambler and George Pernet. The brilliant rose flowers are produced in large clusters and in great profusion from June until late in the fall.

Baroness Rothschild—A beautiful light pink, cupped form. The finest exhibition rose.

Baby Rambler—A dwarf variety of the Crimson Rambler. A constant bloomer. Very popular.

Clio—Flesh color. Perfection in form and growth; fine, broad petals; delicate texture; prolific bloomer; very fine.

Frau Karl Druschki or Snow Queen—An exquisite new pure white rose, sent out in 1900. Very large and fragrant. The most perfect of all white roses. Price, 35c each; 4 for \$1.25.

Fisher Holmes—Large, crimson, vigorous and free flowering. Resembles Gen. Jacqueminot, but fuller, darker and better bloomer.

Frau Karl Druschki

There has never been any San Jose Scale found in our Nurseries

Margaret Dickson

Francois Levet—Fresh, clear, rose color, bright and glistening. Large, fine.

Gen. Jacqueminot—Crimson; rich and fine form; free flowering.

Harrison Yellow—The best yellow.

Killarney—Best hardy garden rose. The color is an exquisite soft pink, of fine satin texture, with a rare and delightful fragrance. The buds are remarkably beautiful. It flowers continually from June until November. It is perfectly hardy and will stand our severest winters.

La France—Delicate silvery-rose, shaded with pink. Very large; superb form.

Mrs. John Laing—Delicate salmon pink, fine form, very fragrant; blossoms continuously through the summer; one of the finest pink roses.

Mad. Gabriel Luizet—Pink; very large and fragrant, cup shaped, rich and full.

Marshall P. Wilder—Bright cherry-carmine; fragrant; vigorous, fine form.

Margaret Dickson—This beautiful rose cannot be too highly recommended. It is white, with pale flesh center; petals very large, shell-shaped and of great substance; fragrant; foliage very large, dark green; a very strong grower.

Paul Neyron—Deep rose; double; large size.

Persian Yellow—Deep golden-yellow; hardy.

Prince Camille de Rohan—Deep velvety crimson. A splendid rose.

Rosa Rugosa—Of Japanese origin; flowers mostly single; plant very beautiful on account of its good habit and beautiful glossy foliage; colors, white and rosy crimson. Makes a beautiful low hedge.

Soliel d'Or (Golden Sun)—New. Hardy yellow rose; foliage glossy. Robust in growth and is sure to be popular. Price, 35c each.

Ulrich Brunner—Brilliant cherry red, fine form and finish; petal of great substance; vigorous, hardy; one of the best.

Mrs. John Laing

Farley, Mass., April 19, 1913.

Dear Sirs:—Your goods reached me safely and in good condition. When I bought them down here, they were not half so large and I had to pay double the price. Thanking you for the quick order and such good trees, I remain,

Yours truly,

A. J. STONE.

Slingerlands, N. Y., April 21, 1913.

Gentlemen:—The trees arrived in splendid condition. I am well pleased with them.

Yours very truly,

RALPH E. THOMPSON.

You will find our trees have wonderful roots and are straight, clean trees, well branched

Fisher Holmes

CLIMBING ROSES

Baltimore Belle—White tinged with blush; very double; flowers in clusters.

Blue Rambler, Veilchenblau (Violet Blue)—The new rambler, which is hailed by the German rose growers as the forerunner of a genuinely cornflower blue rose, is a seedling of Crimson Rambler. The blossoms, massed in large umbels, are semi-double, of medium size. The color, on first unfolding, is either reddish pink or purplish pink, then turns amethyst, and finally steel blue as the flower fades. The general color impression is that of the March violet. The yellow stamens appear in sharp contrast to the blue petal. The plant is vigorous in growth, with shining green foliage and few but sharp thorns. So far it has not suffered from mildew and is considered one of the most hardy ramblers. **Price, 35c each.**

Crimson Rambler—Flowers a rich glowing crimson, bright and clear, and remain on the plant in perfect condition, with their freshness and beauty unimpaired, for more than two weeks. They are borne in immense clusters. Entirely hardy. Awarded three gold medals.

Dorothy Perkins—A beautiful pink variety of the Crimson Rambler. Hardy and desirable.

Lady Gay—This Rose is a seedling of Crimson Rambler which it closely resembles in habit of bloom and vigor of growth. The flowers are of a delicate cherry pink color, fading to a soft tinted white. It is perfectly hardy and unsurpassed for climbing work.

Tausendschon (Thousand Beauties)—New. Imagine a luxuriant climbing rose literally covered with thousands of bright blossoms, borne in clusters, and quite double. Colors of every imaginable shade, from white to deep pink. A hardy vigorous grower with few thorns and handsome foliage. **Price, 35c each; 4 for \$1.25.**

Queen of Prairie—Rosy red; flowers large and compact. Very popular.

White Rambler—Similar in origin, habit of bush and bloom to Crimson Rambler, but not so strong a grower.

Yellow Rambler—(Aglaiä)—The hardiest yellow climbing rose yet introduced. Very fragrant and a very vigorous grower; a worthy companion to the wonderful Crimson Rambler.

TREE ROSES

The Tree Roses are grafted on hardy rose canes four to five feet high, are tree shaped, and when in full bloom are objects of beauty, making handsome plants for the lawn. We can supply White, Red, Pink, Yellow and Crimson, named varieties, very fine, strong trees that will bloom the first year. **Price, 50c each; \$5.00 per dozen.**

Crimson Rambler

TESTIMONIALS

Gentlemen:—The trees came safely to hand and appeared to be in first-class condition. Thanks for sending them in such nice condition.

Glen Allen, Va., April 23, 1913.

Yours truly,
RICH. F. ROBINSON.

Gentlemen:—I received my trees and never received nicer ones, nor did I ever have trees done up in better shape than those I got from you. The roots were moist and the trees were green. Many thanks for the care you took in doing them up for shipment.

Coal Center, Pa., May, 1912.

Yours truly,
H. H. HANNEN.

Gentlemen:—Trees received in the pink of condition. They were so thoroughly packed that when opened they had the appearance of having been just taken out of the ground. Thanks for the extras.

New Paltz, N. Y., April 30, 1913.

Very sincerely,
C. E. LASHER.

Dear Sirs:—The trees all did well, as I only lost three out of thirty-nine. If any other company can do as well, let them prove it. As long as I can get your trees I shall continue to do so. Would like your catalogue when you send them out.

North Woodbury, Conn., Dec. 19, 1913.

Yours truly,
RICHARD FOWLER.

Gentlemen:—The trees I bought from you are thrifty and growing nicely. I lost two from not knowing what was the trouble. I do not think any one can buy healthier trees than those you sent me. We had a very tough summer, but the trees stood it well. Wishing you the greetings of the season, I remain,

Glen Allen, Va., Dec. 19, 1913.

Yours very truly,
RICHARD F. ROBINSON.

Gentlemen:—The trees arrived in good shape and have started to grow. The stock was very satisfactory indeed. I shall certainly keep you in mind when in need of more trees and shrubs.

Wellesley, Mass., May 21, 1913.

Yours truly,
D. CARMICHAEL.

Dear Sirs:—I am so well pleased with the stock that I bought of you two years ago, I am recommending your goods to my neighbors. Part of my last order was for two of my neighbors and now I have another order from another. Enclose please find check.

Schenectady, N. Y., May 7, 1912.

Respectfully yours,
WM. A. FRIEDMAN.

Plant a Cherry Orchard

THIS SPRING

We have a Large Stock of "FIRST QUALITY" Trees

The Productive Large Montmorency Cherry

Our strain of MONTMORENCY CHERRY is the Improved Large Fruiting kind. All our propagating buds were taken from one particular tree that produces annually the largest fruit we ever saw. There are several different kinds of Montmorency cherries; we are growing but one, and that is the IMPROVED LARGE MONTMORENCY.

One of our customers from North Girard, Pa., was so well pleased with his cherry trees, purchased from us three years ago, that he ordered a lot more last fall. Another customer in Greene Co., N. Y., who had several hundred last spring, tells us he lost only a few trees, although it did not rain for several weeks after they were planted.

Bartlett, Clapp's Favorite and Kieffer Pears.

If you want to have the best Pear Orchard in your locality, plant some of our FRESH DUG TREES. The finest young Bartlett orchard in Albany Co., N. Y., was grown and furnished by us. The finest Kieffer Pear orchard in Greene Co., N. Y., was also grown and furnished by us.
